

ABSTRACT

Disclosed is an absorbent article useful for the following purposes without limitation:

5 as a bed pad, a baby changing pad, a bib, a table cloth, or a painter's drop cloth. The absorbent article includes a vapor-permeable liquid-impermeable bottomsheets having an interior surface and an exterior surface, an absorbent structure positioned adjacent the interior surface, and a non-adhesive skid-resistant coating applied to the exterior surface such that the bottomsheets remains vapor-permeable after application of the coating. The

10 non-adhesive skid resistant coating improves the ability of the absorbent article to remain in position without leaving residue on surfaces while leaving the absorbent article breathable.
